

Below is the Scheduling Committee's proposal for the Zone 1N meet award criteria (also attached).

- Voting is now open to the Zone as of Friday, May 13, 2016
- Submit votes via email to Jim Stretch at jc_stretch@yahoo.com
- One vote per team, one vote per officer
- **Voting deadline 5PM Friday, May 20, 2016**

PACIFIC SWIMMING ZONE 1N
MEET BID AWARD CRITERIA

Proposed: Friday, May 13, 2016

Zone 1N Scheduling Committee: Noelle Wilhite, Schedule Chair (PASA), Tom McRae (SOLO), Annie Stein (DACA)

1. **History of Hosting** – Priority given to team who have hosted meets in the past. First consideration for total number of meets hosted throughout entire season; second consideration for specific weekends/time of season. This allows flexibility for teams to change when they host without losing a meet and reducing their total meet count.
2. **Team Support at LSC/Zone** – Priority given to teams showing support and exceptional volunteerism at the LSC and Zone level.
3. **Equitable Distribution of Hosting Opportunities** – Share hosting duties equitably among all interested teams. Consideration for financial need.
4. **Athlete Opportunities for Competition** – Consideration for number of entries available (dependent on number of lanes), additional considerations for warm-up cool down space.
5. **Venue Location** – Host locations considered on dual venue weekends to reasonably serve athletes in all areas of the Zone.
6. **Overall Quality of Meet Experience*** – Consideration for revenue generated, adherence to timeline, parking, athlete, coach and spectator seating, locker rooms, officials support, organization of volunteers (timers, officials, marshals, etc), and hospitality.

*Due to subjectivity of Criteria Six, this will be used at a tiebreak. Proposals for objective measures of meet experience/quality welcome.

Additional notes:

1. Once the criteria is voted on, the committee will award bids according to the approved criteria.
2. Meets and/or venues will not be added to the Zone CBA+ Meet schedule unless approved by the Zone. Non-conforming meets will continue to be the responsibility of host teams and may only be held on dates that do not conflict with the approved Zone schedule.
