

### **Motion 2207DDEI01: Reopen MEFAP Request**

Authorize Pacific Swimming to pay to SwimConnection and FastSwims 75% of the actual cost to develop **MEFAP** entry functionality on their platforms. Pacific Swimming's contribution will not exceed \$5000 to each company.

Rationale:

This email requests the Board to re-open the MEFAP funding request based on the following:

- We seek to be more inclusive by treating Outreach Athletes and Premium Athletes the same when it comes to the meet entry process.
- Treat all of our Pacific Swimming athletes how we would want to be treated.

This request seeks approval to contribute and support the modification of a swim meet entry program used by many swim clubs. The program modification would treat swimmers equitably
